Be inspired.

our engineering mindset:

1980 standardized

Quality through standardization!

2000 flexible

A step ahead flexibility!

2017 unlimited

Changing limits!

product development structure

Design and Simulation...

- finite elements analysis
- „KULI“ cooling network optimization
- „Simcenter“ computational fluid dynamics (CFD) thermal and flow simulations.

Validation and Testing...

- performance acc. ISO 5801 / DIN EN1216,
- pressure related analysis 2014/68/EU
- material properties ISO 9227, DIN 60068/ISO16750...

Production and Operation...

- global traceability & PPM monitoring
- local assembly and warehouses
- ISO 9001:2015
- ISO 14001:2015
- ISO 45001:2018

How we support.

business development processes

Worldwide Logistics

- customized ERP connections,
- spare parts network,...

Availability

- KANBAN system control,
- fast prototyping,
- global QM standards,...

Support

- international communication
- faster then 3 days delivery program,
- > 1.000.000/a produced units!

What we supply.

product portfolio

Thermal Systems

- Plate & bar fluid/air
- Tube flex fluid/air
- Cold plate solid/fluid
- Shell tube fluid/fluid

Connection Technology

- Shut off valves
- Expansion joints
- Vibration absorbers

Fluid Controls

- Oil Pumps
- Water Pumps

We produce...

...with high environmental responsibility

- air-conditioned punch- and stacking halls
- automatic cleaning and drying machine

- vacuum brazing
- robot welding

- 100% pressurized digital leak test
- in house painting line

We supply worldwide applications.

Mobile

on- and off highway

agricultural and forestry machinery

construction and mining equipment

material handling

engine cooling

Industrial

power transmission & gearboxes

lifting and municipal vehicles

compressors & air industry

forming and machining tools

oil & gas industry, marine equipment

Green Energy

transformer and e-cooling

renewable and power generation

recycling and waste treatment
